1950 AGREEMENT FOR THE MARKETING OF TOMATOES FOR PROCESSING

MEMORANDUM OF AGREEMENT made by the Negotiating Committee for tomatoes produced in Ontario in 1950, appointed under the provisions of "The Ontario Vegetable Growers' Marketing-for-Processing Scheme".

We, the undersigned members of the Negotiating Committee, agree and recommend to the Farm Products Marketing Board that the following agreement be approved:

1. The provisions of *The Farm Products Grades and Sales Act* respecting grades for tomatoes for processing shall apply to every contract for the purchase of tomatoes.

2. The processor may reject any graded tomatoes not equal in quality to 50 per cent of No. 1 grade and over 5 per cent below No. 2 grade as specified in the Regulations of *The Farm Products Grades and Sales Act*. Accurate records shall be kept by the processor for all rejections and shall be made available, on request, to the Board.

3. The processor may reject any ungraded tomatoes provided such tomatoes are not equal in quality to 50 per cent of No. 1 grade and over 5 per cent below No. 2 grade as specified in the Regulations of *The Farm Products Grades and Sales Act* provided all such tomatoes have been inspected by an Inspector appointed under the said Act, the party in error to pay for such inspection. Accurate records shall be kept by the processor for all rejections and shall be made available, on request, to the Board.

TERMS OF CONTRACT

4. Tomatoes produced in Ontario by any grower for processing in Ontario shall be sold and purchased by a written contract between the grower and a licensed processor.

5. Every contract for the purchase of tomatoes for canning may prescribe a minimum size of 2¼ inches in diameter but no minimum size may be prescribed for tomatoes purchased for any other processing purpose.

6. Every contract made between a processor and a grower for a specified number of acres or a specified number of bushels, shall provide that the grower may pick and sell any ripe tomatoes to any other person at any time until one week previous to the day the processor has in writing by prepaid post notified the grower that he will commence to accept delivery of the grower's tomatoes, and that the grower may sell his tomatoes to any other person after such processor has ceased to accept delivery of tomatoes from such grower.

7. Every contract for tomatoes shall specify the factory or receiving station to which such tomatoes shall be delivered by the grower named in the contract.

8. No grower shall contract to deliver tomatoes to more than one processor unless the same has been mutually agreed upon by the grower and the processor concerned, provided that when any grower contracts with two or more processors the tomatoes being grown for each processor shall be produced on separate plots of land and identified.

9. No processor shall knowingly contract to purchase or accept delivery of any tomatoes from a grower when such grower has contracted to deliver the same tomatoes to another processor unless the grower has fulfilled his contractual obligations with such other processor or has been relieved from the same.

CONDITIONS OF SALE

10. Every processor shall give the growers 48 hours' clear notice by written notice and by poster placed in a conspicuous position at each factory before factories may be closed for the season.

11. No processor shall reject or refuse to accept delivery of any load of tomatoes that complies with the requirements herein set forth when such load has been contracted for and purchased on a grade basis and has complied with the particular grade contracted for or when such load has been contracted for and purchased with no grade specified and has complied with the requirements and conditions as herein set forth.

12. Every grower or processor shall be excused for non-fulfilment of contract caused by fire, lack of transportation facilities, inability to obtain supplies, floods, strikes, earthquakes, wind, hail, acts of God, invasion, order of civil or military authorities, beyond the control of either party to the extent that the non-fulfilment of contract has been hindered or prevented by such cause or causes.

13. No processor shall require any grower to purchase fertilizer from such processor or any agent, servant or employee of such processor.

14. The processor agrees to establish a system of scheduled deliveries and to accept and receive tomatoes ordered and delivered to the factory in good condition for processing and the processor agrees that the time for waiting for unloading will not exceed two hours, provided deliveries are made on time and under normal conditions at the factory. If this is not complied with, the processor is to pay to the grower a reasonable allowance for trucking and labour costs beyond the two hour limit. Notice for delivery of tomatoes shall be issued sufficiently in advance of the time specified for delivery to give the grower reasonable time in which to make the required delivery.

15. When containers are supplied by the grower for delivery of tomatoes to a processor and are properly identified by name, initials or other satisfactory identifying mark, the processor shall be responsible for damage or destruction, reasonable wear and damage excepted, for such containers while the containers are in the custody of such processor, but in no event shall such processor be held responsible for containers left in the possession of the processor after December 1st in each year.

16. Where containers are not furnished by the grower, the processor is to loan the grower sufficient baskets to make delivery of the said tomatoes, it being agreed that the grower shall use them only for delivery of tomatoes to the processor and shall return them within two weeks after his last delivery and that the grower shall pay the processor on or before the date of final payment for the 1950 crop twenty cents for each basket not returned prior to that date.

17. Every processor shall return to the grower an equal number of empty containers to those delivered with each load of tomatoes by the grower to the processor during the processing season.

18. Late blight disease control measures may be undertaken by a processor with the consent of a grower and the cost of such control measures shall be negotiated and agreed to between the processor and the grower or his representative and the charge shall not exceed the processor's cost. No processor may require

a grower to accept a spraying or dusting program to control late blight in tomatoes as a condition of obtaining a contract to grow tomatoes for processing and to pay all or part of the cost of such a program.

19. A duly appointed representative of the Ontario Vegetable Growers' Marketing Board shall have the authority to represent the grower in all matters concerning this Agreement in accordance with the provisions of the Ontario Vegetable Growers' Marketing-for-Processing Scheme.

20. The provisions of this Agreement shall apply to and form part of every contract entered into between a processor and a grower for the purchase of tomatoes produced in Ontario for processing during the year 1950, and the provisions of this Agreement shall supersede any provision that may be contained in any contract which is inconsistent with this Agreement.

21. There shall be no contracting for the 1951 tomato crop prior to February 15th, 1951, unless minimum prices and terms of contract are agreed to prior to that date, by the Negotiating Committee or the Negotiating Board established under the Regulations for tomatoes.

22. The Negotiating Committee agree that the committee of growers and processors will continue their study of forms of tomato contracts with a view of reaching a definite understanding concerning a standard form of tomato contract to be used in 1951, the committee to make their recommendations not later than June 1st, 1950.

23. The processor agrees to accept delivery of contracted tomatoes at the time tomatoes are ready for processing and the processor agrees to accurately weigh the tomatoes, keep a true and accurate record of the weights and grades and furnish the grower with a duplicate, original copy of all records of weights and grades at the time delivery is made and the grower may enter the premises of the processor for the purpose of checking the weighing and grading.

24. When a processor furnishes the grower with machinery and other services on request, the charges for same shall be negotiated and agreed to in writing between the processor and the grower or his representative on or before the execution of a contract between processor and grower.

25. Either party hereto shall have the right to cancel or request modification of the acreage contracted for on or before the fifteenth day of April in any year by giving written notice by mail to the other party.

26. Processors running strained products and changing over to processing whole-pack tomatoes or vice-versa shall give each contracted grower 48 hours' clear notice in writing, before making the change in grade requirements.

27. Any additional cost which may be incurred as a result of a change as requested by the processor in the factory or factory receiving station to which tomatoes are to be delivered shall be borne by the processor.

28. No processor or buyer shall enter into a contract with a grower after July 15th in any year unless such processor or buyer has obtained consent to enter into such contract from the local board or such other person as the local board may designate.

1950 AGREEMENT FOR THE MARKETING OF GREEN PEAS FOR PROCESSING

MEMORANDUM OF AGREEMENT made by the Negotiating Committee for green peas produced in Ontario in 1950, appointed under the provisions of "The Ontario Vegetable Growers' Marketing-for-Processing Scheme".

We, the undersigned members of the Negotiating Committee, agree and recommend to the Farm Products Marketing Board that the following agreement be approved:

1. In every contract or form of agreement where the grower agrees to plant and deliver a specified number of acres of green peas to a processor it shall be provided that the processor, when necessary, may limit deliveries of shelled peas to 3,500 pounds for each acre of green peas contracted for.

2. No form of contract or agreement entered into between a grower and a processor shall contain any provision for blanket tare deductions or other dockage provisions for thistle heads and all other forms of waste. Every grower shall be responsible for the removal of thistle heads before harvesting. In the event any land planted to green peas under a contract between a grower and a processor shall be found to be infested, in all or in part, and the grower neglects to remove properly such thistles before harvesting, the processor shall have the right to reject any or all such green peas grown upon such land without relieving the grower of his obligation to deliver the balance of the green peas. Such rejections, however, shall be made in the fields in question and once deliveries of green peas are made in accordance with the instructions of the processor from such lands no rejections shall be made.

3. Pea aphid pest control measures may be undertaken by any processor with the consent of the growers concerned and the cost of such control measures shall be negotiated and agreed to between the processor

and the growers. In no case, however, shall the charge made by any processor for such pest control measures exceed the processor's cost for same.

4. Tare on empty pea boxes shall be the actual weight of the boxes as determined by the processor weighing up representative samples periodically throughout the harvesting season.

5. When pea ensilage is offered for sale by any processor the growers contracting to grow green peas for the processor shall have first option to purchase such pea ensilage within a time limit specified by the processor.

6. When green peas are purchased on a graded basis the green peas shall be graded by a Tenderometer or Texturemeter machine. The Tenderometer or Texturemeter reading shall apply to each load from which the sample was taken for grading. Samples for grading shall be taken in one of two ways as follows:

(a) When green peas are graded at the processor's vining station:

From the full run of the apron. Such samples shall be obtained by the use of a long sampling tray.

(b) When green peas are graded at the processor's factory:

By taking an equal quantity of peas midway down in each box delivered to the processor.

Each sample shall weigh at least five pounds and be thoroughly mixed and cleaned before being graded. If any grower or his representative so request, two additional gradings shall be made before the processor commences to process and the average of the three tests shall determine the grade of the green peas delivered.

7. The processor shall maintain the Tenderometer or Texturemeter machine in good working order and shall permit any pea grader appointed by the Ontario Department of Agriculture to test the machines. The grower or his representative may inspect the grading of his peas by the processor at any time.

8. No form of contract or agreement entered into between a grower and a processor shall contain any provision whereby any processor shall provide any service or equipment during 1950, excepting pea aphid pest control measures, at a rate in excess of the rate charged for the same service during 1949. Furthermore, the charge for any service or equipment, excepting pea aphid pest control measures, provided by any processor during 1950 that was not provided during 1949 shall be at a rate agreed upon between the processor and the Ontario Vegetable Growers' Marketing Board.

9. A grower or processor shall have the right to cancel or request modification of the acreage contracted on or before the 1st day of April in any year in any contract for green peas entered into between a grower and a processor prior to that date by either party giving notice in writing by mail to the other party.

10. There shall be no contracting for the 1951 green pea crop prior to February 15th, 1951, unless minimum prices and terms of contract are agreed to prior to that date by the Negotiating Committee or the Negotiating Board established under the Regulations for green peas.

11. Any additional cost which may be incurred as a result of a change in the factory or vining station to which the pea vines are to be delivered as ordered by the processor shall be borne by the processor.

12. The processor gives no warranty expressed or implied as to the productiveness of the seed but agrees to supply the grower with seed which meets standards set under the Seeds Act (Dominion) and to state clearly on each bag the germination test of said seed.

13. The processor agrees to accept delivery of all contracted peas subject to the quantity limitation of No. 1 of this Agreement at the time peas are ready for processing and the processor will accurately weigh shelled peas as they are received from the viner, keep a true and accurate record of weights and grades and furnish the grower with a duplicate, original copy of all weights and grades upon delivery by the grower and the grower may enter the premises of the processor for the purpose of checking the grading and weighing.

14. The processor or his representative shall determine the time of planting and it shall be the processor's responsibility to determine the time peas are ready to cut and notify the grower accordingly.

15. In the event of a dispute between the processor and the grower as to the quality of peas purchased on the ungraded basis, the matter in dispute shall be referred to an Inspector appointed under *The Farm Products Grades and Sales Act* immediately, who will test the peas with a tested Texturemeter and if found to grade less than 150 lbs. the processor shall accept and pay the grower the agreed price per ton for ungraded peas.

16. A duly appointed representative of the Ontario Vegetable Growers' Marketing Board shall have the authority to represent the grower in all matters concerning this Agreement in accordance with the provisions of the Ontario Vegetable Growers' Marketing-for-Processing Scheme.

Dated at Hamilton, this 1st of March, 1950.

1950 AGREEMENT FOR THE MARKETING OF GREEN PEAS FOR PROCESSING

MEMORANDUM OF AGREEMENT made by the Negotiating Board for green peas produced in Ontario in

1950, appointed under the provisions of "The Ontario Vegetable Growers' Marketing-for-Processing Scheme."

We, the undersigned members of the Negotiating Board, agree and recommend to the Farm Products Marketing Board that the following agreement be approved:—

(1) *Purchase of Ungraded Green Peas*

The minimum price to be paid every grower for all green peas produced in Ontario during the year 1950, purchased and received for processing, shall be at the rate of \$75.00 per ton, f.o.b. factory or f.o.b. factory receiving station.

(2) *Purchase of Graded Green Peas*

The minimum prices to be paid every grower for all green peas produced in Ontario during the year 1950, purchased and received for processing shall average not less than \$75 per ton f.o.b. factory or f.o.b. factory receiving station. Those processors purchasing on a graded basis may do so on the same T-meter readings and price ranges as in 1949, subject to the \$3 per ton reduction in the base price.

(3) No form of contract entered into between a grower and a processor shall contain any provision requiring the grower to purchase pea seed at a price exceeding \$7.00 per 56-lb. bushel, which charge may be deducted from any moneys payable to the grower for green peas produced and delivered to the processor and the amount of such deduction shall be shown on the grower's statement. In event the gross return to the grower on all plantings of peas harvested for processing average less than \$56 per acre the processor shall adjust the seed charge to one-half the gross returns for the crop.

(4) Peas left unharvested in the green state at the direction of any processor shall be harvested by the grower in the ripe state and delivered by the grower to the processor free of foreign matter. The minimum price to be paid every grower for all such ripe peas shall be at the rate of 6¼¢ per pound.

(5) (a) Every processor shall furnish a suitable bank guarantee to the Farm Products Marketing Board on or before the 1st of May, 1950, or alternatively, shall agree to pay 90% of the amount of the purchase price due and owing the grower on the following basis: payments shall be made on the 5th and 20th of each month after the first peas are delivered by the grower to the processor and shall be payment of 90% of the purchase price of the peas delivered up to the 1st and 15th, respectively, of the said month.

(b) Every processor who has furnished a suitable bank guarantee on or before the 1st of May as hereinbefore set forth shall when requested by any grower for an initial payment for peas delivered to such processor, pay up to 50% of the amount of the purchase price due and owing to such grower and such payments shall be made within 7 days after request for payment in accordance with this section.

(c) In all Cases for payment provided by subsections (a) and (b) of the paragraph the processor shall be entitled to deduct from the first payment or payments due by him to the grower thereunder, all moneys owing to the processor by the grower to such date.

(d) The final payment of any moneys due and owing to a grower or buyer for peas produced in Ontario during the year 1950 purchased by a processor from such grower or buyer shall be made on or before November 1st, 1950.

- (6) Notice for the cutting and delivering of pea vines shall be issued sufficiently in advance of the time specified for delivery to give the grower reasonable time, weather conditions considered, in which to make the required delivery.
- (7) The processor agrees to establish a system of scheduled deliveries and to accept and receive Peas ordered vined and delivered to the factory in good condition for processing and the processor undertakes that the time for waiting for unloading shall not exceed two hours provided the deliveries of all growers are made on schedule and under normal conditions at the factory or vining station. If this is not complied with, the processor is to pay the grower a reasonable allowance for trucking and labour costs beyond the two hour limit.
- (8) The grower or processor shall be excused for non-fulfilment of contract caused by inability beyond the control of either party to obtain necessary supplies, fire, lack of transportation facilities, floods, strikes, earthquakes, wind, hail, Acts of God, invasion, order of civil or military authorities or any external act beyond the control of either party to the extent that the fulfilment of contract has been hindered or prevented by such cause or causes.
- (9) The Negotiating Board recommends that the Ontario processing industry plan to purchase green peas on a graded basis in the near future and that all processors within a time to be determined should equip themselves with the necessary T-meter equipment for that purpose. The reason for the present inability to establish industry wide grading is that only 4 Companies out of approximately 20 are so equipped and buying on a graded basis.
- Dated at Hamilton, Ontario, this 27th day of March, 1950.

Chairman, Negotiating Board.

Member, Negotiating Board.

1950 AGREEMENT FOR THE MARKETING OF SWEET CORN FOR PROCESSING

MEMORANDUM OF AGREEMENT made by the Negotiating Committee for sweet corn produced in Ontario in 1950, appointed under the provisions of "The Ontario Vegetable Growers' Marketing-for-Processing Scheme".

We, the undersigned members of the Negotiating Committee, agree and recommend to the Farm Products Marketing Board that the following agreement be approved:

1. The provisions of this Agreement shall apply to and form part of every contract entered into between a processor and a grower for the purchase of sweet corn produced in Ontario for processing during the year

1950 and the provisions of this Agreement shall supersede any provision that may be contained in any contract which is inconsistent with this Agreement.

2. In every contract where the grower agrees to plant and deliver sweet corn produced on a specified number of acres to a processor the processor shall accept at least 7,000 pounds of sweet corn for each acre contracted for during 1950.

3. No form of contract or agreement entered into between a grower and a processor shall contain any provision requiring the grower:

- (a) to purchase sweet corn seed at a price exceeding 27 cents per pound which charge may be deducted from any moneys payable to the grower for sweet corn produced and delivered to the processor and the amount of such deduction shall be shown on the grower's statement; or
- (b) to purchase corn ensilage, and where a grower desires to purchase corn ensilage, it shall be on the basis of a stated price per ton for such ensilage.

4. There shall be no contracting for the 1951 sweet corn crop in Ontario prior to February 15th, 1951, unless minimum prices and terms of contract are agreed to prior to that date by the Negotiating Committee or the Negotiating Board established under the Regulations for sweet corn.

5. Any additional cost which may be incurred as a result of a change in the factory or receiving station to which sweet corn is to be delivered as ordered by a processor shall be borne by the processor.

6. The processor gives no warranty expressed or implied as to the productiveness of the seed, but agrees to supply the grower with seed of not less than the minimum No. 1 Grade as set under *The Seeds Act* (Dominion), unless previously arranged with the Ontario Vegetable Growers' Marketing Board.

7. The processor agrees to accept delivery of all contracted sweet corn subject to the quantity limitation of No. 2 of this Agreement at the time sweet corn is ready for processing and the processor agrees to weigh accurately the sweet corn, keep a true and accurate record of the weights and furnish the grower with a duplicate, original copy of all records of weights at the time delivery is made and in case of grades within 48 hours the grower may enter the premises of the processor for the purpose of checking the weighing and grading.

8. The grower shall deliver sweet corn covered by this Agreement to the designated factory promptly after harvest. It is agreed that high quality sweet corn can be processed only if sweet corn is tender and contains no mixture of varieties. It is further agreed that once deliveries are made in accordance with the order of the processor or his representative, the processor may not reject but must accept sweet corn and pay the grower the price set out in this Agreement.

9. Either party to this Agreement shall have the right to cancel or request modification of the acreage contracted on or before the first day of May in any year by giving written notice by mail to the other party.

10. When a processor furnishes a grower with machinery or other services on request, the charges for

same shall be negotiated and agreed to in writing between the processor and the grower or his representative on or before the execution of a contract between processor and grower.

11. Spraying or dusting of sweet corn for disease and pest control may be undertaken by the processor with the consent of the grower and the cost of such control measures shall be negotiated and agreed to in writing between the processor and the grower or his representative on or before the execution of a contract but the charge made shall not exceed the processor's cost.

12. A duly appointed representative of the Ontario Vegetable Growers' Marketing Board shall have the authority to represent the grower in all matters concerning this Agreement in accordance with the provisions of the Ontario Vegetable Growers' Marketing-for-Processing Scheme.

13. It is understood and agreed between the processor and the grower that if the grower's sweet corn crop is not harvested through the fault of the processor, then the processor shall notify the grower of his inability to receive and accept the sweet corn and to allow tests as to yield and grade to be made immediately and the processor shall pay for the grower's unharvested sweet corn at the prevailing rate per ton for sweet corn, less any non-incurred cost of harvesting at prevailing rates. The yield and grade of unharvested sweet corn to be estimated and agreed upon by the grower and the processor and a third qualified person if necessary appointed by the Farm Products Marketing Board.

1. The minimum price to be paid every grower for all sweet corn produced in Ontario during the year 1950, purchased and received for processing, shall be at the rate of \$18.75 per ton, f.o.b. factory or f.o.b. factory receiving station.

2. (a) Every processor shall furnish a suitable bank guarantee to the Farm Products Marketing Board on or before the 1st May, 1950, or alternatively, shall agree to pay 90% of the amount of the purchase price due and owing the grower on the following basis:—payments shall be made on the 5th and 20th of each month after the first Sweet Corn is delivered by the grower to the processor and shall be payment of 90% of the purchase price of the sweet corn delivered up to the 1st and 15th, respectively, of the said month.

May it please Your Honour

We, His Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to His Majesty's person and Government, and humbly beg to present for Your Honour's acceptance a Bill intituled "An Act for granting to His Majesty certain sums of money for the Public Service of the fiscal year ending the 31st day of March, 1951.

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:

The Honourable the Administrator of the Province doth thank His Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in His Majesty's name.

His Honour was then pleased to deliver the following gracious speech:

Mr. Speaker and Members of the Legislative Assembly

Before performing the duty of proroguing the Second Session of the Twenty-third Legislature of the Province of Ontario, I wish to thank you, in the name of His Majesty, for the faithful and diligent application which you have given to the business of the people of this Province. The legislation which my Government has brought forward for your consideration and which you have approved, is of essential importance and includes many measures of particular benefit and interest.

Ninety Public Bills have received sanction. All are consistent with the continuing development and economic expansion of the Province. I should mention particularly a few of the measures which have special importance and value to the people.

Measures have been approved which will enable my Government to carry forward the coming conferences and discussions between the Federal Government and those of the several provinces, particularly within the fields of taxation. A Federal-Provincial Conference will be held this Autumn. It is a matter of much gratification that the various Governments can, and do, confer in a spirit of full co-operation and mutual understanding, in the interests of Canada. Arising directly from this co-operation is an Act to give increased stimulation to the building of homes. It is noted that a high level of home building in the Province has already been achieved.

Approval has been given to "The Labour Relations Act, 1950," which puts clearly into the form of legislation for the Province of Ontario a code of principles and procedures for the conduct of relations between labour and management. I am confident that great good will come to all our people from willing adherence to the true intent and spirit of this great measure.

In recognition of the trends of these changing times, a measure has been given sanction which will prohibit in the future the making of covenants in deeds of land designed to prevent ownership or occupation on grounds of race or creed. An adaptation of the same principle was introduced in the Act relating to labour relations.

In response to the expressed desire of the people, authority has been given to the Municipalities of the Province independently to permit the conduct of sport within a limited period, on Sunday afternoons. This authority may be exercised only after a vote of the people in each municipality has been taken, and the conduct of sport will be subject to regulation by the municipal council.

Improvement in many respects of the marriage laws of the Province has been given sanction. In particular, provision has been made for the solemnization of marriage by County and District judges and by Magistrates.

Penalties upon conviction for driving while drunk have been increased materially.

Another measure which warrants particular mention is that establishing the Ontario Racing Commission, created to control and regulate all forms of horse racing in Ontario.

Although not a matter which involved legislative action, special mention should be made of the submission to you of a most comprehensive and far-reaching report by your Select Committee on Conservation.

Many measures have been passed which assist our people and tend to the betterment of conditions. Progress in education is most marked, and is reflected in grants to primary and secondary schools which are the highest in the history of our Province. Ontario leads all comparable jurisdictions in America. Additional assistance has been given to our hospitals in the form of a special maintenance grant of 25% of the amount given in 1949. Gratifying progress has been shown in the continuing improvement of the health and welfare of our people.

Many other matters have received consideration and approval. Among them should be mentioned twenty-eight Private Bills dealing with matters of special importance to those concerned and which required legislative action.

Satisfactory financial provision for the ensuing year has been made. Much gratification should be expressed and much encouragement taken from the fact that although the demand for funds to meet the requirements of my Government has been higher than ever before in the history of the Province, it has been possible to meet this demand, and at the same time to reduce amusement and entertainment taxes.

In addition to the ordinary requirements my Government will be enabled to undertake very large public investment commitments. The substance and stability of this great Province are high.

May I express my gratitude for the appropriation of public funds for the purposes to which I have just referred. I am confident that under the guidance of Divine Providence the security and well being of the people of this Province will be advanced and strengthened by your endeavours as legislators.

The Provincial Secretary then said:

Mr. Speaker and Gentlemen of the Legislative Assembly

It is the will and pleasure of the Honourable the Administrator of the Province that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

TORONTO, March 24th, 1950.

INSTRUCTIONS

1. The morbid conditions relating to death are divided into two parts. In Part 1 are those conditions causally related to the "IMMEDIATE CAUSE" and in Part 2 those not causally related thereto. In most cases the completion of Part 1 will be sufficient. Detailed certification is not required, the entry of a single cause being preferable in cases where a single cause is sufficient, as in Example 1. Where the person completing the certificate finds it necessary to record more than one cause, it is important that they be stated in the position provided on the form as indicative of their mutual relationship.
2. Follow these instructions:
 - (a) name first the "Immediate Cause" of death, i.e., the disease, injury or complication which caused death (not mode of dying or terminal condition);
 - (b) then give the other morbid conditions (if any) of which the immediate cause was the consequence, in order of causal relationship stating the most recent one first and then the others in order;
 - (c) Part 2 is reserved for other important contributory morbid conditions, particularly when death was due to a combination of maladies, none of which would have been fatal alone;
 - (d) use accepted terms for morbid conditions and never record mere symptoms;
 - (e) **maternal deaths**—qualify all diseases resulting from child-birth, miscarriage or abortion by the word "puerperal", for example, puerperal septicaemia; distinguish between septicaemia originating in abortion and in child-birth;
 - (f) **cancer**—specify the organ or first part affected;
 - (g) **violent deaths**—where a death was due to a violent cause, the person completing the medical certificate shall indicate clearly whether the death was due to accident, suicide or homicide, and the manner and nature of the injury which resulted in death; where the death was due to accident the circumstances shall be stated as fully as possible, for example, an automobile accident shall always be designated as such.
3. The following examples illustrate the essential principles in the use of the form:

INSTRUCTIONS

1. The morbid conditions relating to death are divided into two parts. In Part 1 are those conditions causally related to the "IMMEDIATE CAUSE" and in Part 2 those not causally related thereto. In most cases the completion of Part 1 will be sufficient. Detailed certification is not required, the entry of a single cause being preferable in cases where a single cause is sufficient, as in Example 1. Where the person completing the certificate finds it necessary to record more than one cause, it is important that they be stated in the position provided on the form as indicative of their mutual relationship.
2. Follow these instructions:
- (a) name first the "Immediate Cause" of death, i.e., the disease, injury or complication which caused death (not mode of dying or terminal condition);
 - (b) then give the other morbid conditions (if any) of which the immediate cause was the consequence, in order of causal relationship stating the most recent one first and then the others in order;
 - (c) Part 2 is reserved for other important contributory morbid conditions, particularly when death was due to a combination of maladies, none of which would have been fatal alone;
 - (d) use accepted terms for morbid conditions and never record mere symptoms;
 - (e) **maternal deaths**—qualify all diseases resulting from child-birth, miscarriage or abortion by the word "puerperal", for example, puerperal septicaemia; distinguish between septicaemia originating in abortion and in child-birth;
 - (f) **cancer**—specify the organ or first part affected;
 - (g) **violent deaths**—where a death was due to a violent cause, the person completing the medical certificate shall indicate clearly whether the death was due to accident, suicide or homicide, and the manner and nature of the injury which resulted in death; where the death was due to accident the circumstances shall be stated as fully as possible, for example, an automobile accident shall always be designated as such.
3. The following examples illustrate the essential principles in the use of the form:

APPLICATIONS FOR PROBATE, ADMINISTRATION OR GUARDIANSHIP.

1. Every application for probate or administration or guardianship shall be made by petition prepared, signed and presented by the applicant or his solicitor.

2. The petition shall set forth the facts that are necessary and upon which the applicant relies for a grant, and shall show the value of the real property and of the personal property that would be affected by the grant; and all such facts including the statement of value, shall be verified upon oath.

3. Where there is more than one applicant separate forms of affidavit shall be used.

4.—(1) In the petition and supporting material the deceased and every person referred to shall be described by his given name or names and surname, and, if commonly known otherwise, the true name shall be followed by the words "commonly known as" followed by the name by which he is commonly known.

(2) Where the name contains a distinguishing letter, not being the first letter of a given name, that fact shall be shown in the petition and supporting material.

5. The petition shall show that the deceased was at the time of his death unmarried, married, a widower or divorced.

6. No probate or letters of administration with the will annexed shall issue until after the lapse of seven days from the death of the testator, and no letters of administration shall issue until after the lapse of fourteen days from the death of the intestate, unless, in either case, the judge otherwise directs.

7. Where two or more applications for a grant are made the judge shall determine upon a summary application which shall prevail.

PROBATE.

8. On an application for probate or for administration with the will annexed the due execution of the will shall be proved by one of the subscribing witnesses whose name shall be given in full, but if it be shown that the subscribing witnesses are dead, or if from other circumstances an affidavit cannot be obtained from either of them, the due execution of the will may be established by other evidence.

9. Where the testator executed the will by making his mark the proof shall show that before its execution the will was read over to him and that he had a knowledge of its contents and appeared to perfectly understand the same.

10. Proof of due execution shall be made in respect of every will and of every codicil thereto.

11. No affidavit of execution of a will or codicil and no affidavit of plight shall be sworn by a witness to the will of codicil before another witness to the will or codicil.

13. The will shall be marked as an exhibit to the affidavit of the applicant and shall be identified by his signature and shall be marked as an exhibit to the affidavit proving due execution.

14. Where in a will there appear interlineations, alterations, erasures or obliterations, which have not been attested, such interlineations, alterations, erasures or obliterations shall not be regarded or included in the probate unless it is shown that they existed in the will before its execution or have been rendered valid by republication of the will or by the subsequent execution of a codicil thereto.

15. Where words have been erased or obliterated which may have been of importance, or where the appearance of the will is such as to indicate an attempted cancellation by burning, tearing or the like, or where any suspicious circumstances exist, probate shall not be granted until all such matters have been explained to the satisfaction of the judge.

16. If a will is not dated or is dated imperfectly, one of the attesting witnesses shall furnish evidence of the date of execution, or where such evidence cannot be obtained, evidence shall be furnished of the execution between two definite dates, or that search has been made and that no will of presumably later date has been found.

(b) that neither witness to the will is a beneficiary or the husband or wife of a beneficiary named therein, or, if so, that a named beneficiary or the husband or wife of a named beneficiary, is such a witness, and

(c) that the deceased did not marry after the execution of the will, or otherwise, as the fact may be.

DOUBLE PROBATE.

19.—(1) Where all of the executors named in a will have not made application for probate and the right has been reserved to one or more of them to make

application for probate at some future time, or if an alternative executor is called upon to complete the administration, and, in either case, if it is desired to have the appointment of such executor or executors confirmed by the court the grant for which the application is made shall be termed "double probate".

(2) The application shall state, in addition to the fact of the original probate having been granted to the original applicant, the reason for the second application.

47.—(1) The party filing a caveat shall declare therein the nature of his interest in the property of the deceased and state generally the grounds upon which he enters the caveat and the caveat shall be signed by the party, or by his solicitor on his behalf, and an address shall be given at which service may be affected.
